Skills
Python, FastAPI, LangChain, PyTorch, Docker, AWS, PostgreSQL

Projects
Enterprise RAG Assistant | Python, LangChain, FastAPI
- Built a production retrieval augmented generation pipeline using LangChain and a Pinecone vector database over 50k internal documents.
- Fine-tuned embeddings, added evaluation scripts, deployed on AWS with Docker.
- Exposed the system via a FastAPI backend with unit tests and CI/CD.

Autonomous Research Agent | Python, OpenAI API
- Designed a multi-agent workflow with tool calling and function calling to autonomously summarize research papers.

Experience
Backend Intern, Acme Corp
- Built REST APIs in Python (Django) backed by PostgreSQL and Redis.
